

Mixed harvesters with front umbrella

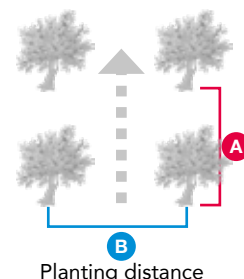

Serie 100 for dry nuts and olives

Standard equipment:

- › Simultaneous opening movement of umbrella and vibrating heads.
- › Independent regulation of the fold/ unfold speed of the umbrella.
- › High pressure hydraulic system with:
 - › The orbital vibration block is reversible in two directions.
 - › Vibration brake.
 - › Self-tightening of the vibrating head while vibrating.
- › Cover set for hollow peeler standard
- › Monomass vibrating head with elevation and transversal orientation.
- › Rear hydraulic central hitched on the 3 points of the tractor, quick hydraulic plugs, counter-weight, visual gauge for the level and temperature of the oil, thermostat, cooling system, suction and return filters.
- › Peelers with independent regulation.
- › In-cab electronic control box.
- › Quick system to hitch/unhitch quickly the harvesting box (according to the models).
- › Supplement 4 mass MIX.
- › Supplement 5 mass MIX.
- › PTO SHAFT 1000 r.p.m.
- › Optimal working revolutions: 880 r.p.m.
- › Prepared for the collection of nuts.

- a: Total width
- b: Total length
- c: Tree entrance opening
- d: Interior width
- e: Interior length
